Re: QUOTATION  
Sounding

Thank you for the invitation to quote on sounding the 850' X 140' area in front of your dock facility as discussed on October 12, 1998. Our product will be a chart of soundings in 50' increments along the 850' of frontage and 10' increments away from dock out to 140' showing depth at a zero tide. (How much water you'd have at a given area with a zero tide) Our lump sum price for the work will be:

\$3,724.00 plus Applicable Sales Tax.

We will be able to start work the week of October 19, 1998. If you have any questions please feel free to call. We look forward to working with you.

Sincerely,

GENERAL CONSTRUCTION COMPANY

Jim Sherman  
Supt.
